Consumers: Protection From What?

Many face challenges in making financial decisions

20% of individuals reported that over the past year, their household spent more than their income.

60% of individuals lack a rainy day fund to cover expenses even for three months in cases of emergencies.

62% of individuals said that, when obtaining their most recent credit card, they did not collect and compare information about cards from more than one company.

Purpose of CFPB

“The Bureau shall seek to implement and, where applicable, enforce Federal consumer financial law consistently for the purpose of ensuring that all consumers have access to markets for consumer financial products and services and that markets for consumer financial products and services are fair, transparent, and competitive.”

CFPB Goals

Empower

We create tools, answer common questions, and provide tips that help consumers navigate their financial choices and shop for the deal that works best for them.

Enforce

We take action against predatory companies and practices that violate the law and have already returned billions of dollars to harmed consumers.

Educate

We encourage financial education and capability from childhood through retirement, publish research, and educate financial companies about their responsibilities.
